Preface	iii
1. SOME JET PROPULSION FORMULAS OF OVER THIRTY YEARS AGO, by Aldo Bartocci, Italy (1968)	1
2. ROBERT ESNAULT-PELTERIE: SPACE PIONEER, by Lise Blosset, France (1968)	5
3. EARLY ITALIAN ROCKET AND PROPELLANT RESEARCH, by Luigi Crocco, Italy (1967)	33
4. MY THEORETICAL AND EXPERIMENTAL WORK FROM 1930 TO 1939, WHICH HAS ACCELERATED THE DEVELOPMENT OF MULTISTAGE ROCKETS, by Louis Damblanc, France (1967)	49
5. ROBERT H. GODDARD AND THE SMITHSONIAN INSTITUTION, by Frederick C. Durant III, United States (1968)	57
6. GIULIO COSTANZI: ITALIAN SPACE PIONEER, by Antonio Eula, Italy (1968)	71
7. RECOLLECTIONS OF EARLY BIOMEDICAL MOON-MICE INVESTIGATIONS, by Constantine D. J. Generales, Jr., United States (1968)	75
8. THE FOUNDATIONS OF ASTRODYNAMICS, by Samuel Herrick, United States (1968)	81
9. VLADIMÍR MANDL: FOUNDING WRITER ON SPACE LAW, by Dr. Vladimír Kopal, Czechoslovakia (1968)	87
10. DEVELOPMENTS IN ROCKET ENGINEERING ACHIEVED BY THE GAS DYNAMICS LABORATORY IN LENINGRAD, by I. I. Kulagin, Soviet Union (1968) . . .	91
11. A HISTORICAL REVIEW OF DEVELOPMENTS IN PROPELLANTS AND MATERIALS FOR ROCKET ENGINES, by O. Lutz, German Federal Republic (1967) . . .	103
12. ON THE GALCIT ROCKET RESEARCH PROJECT, 1936-38, by Frank J. Malina, United States (1967)	113
13. MY CONTRIBUTIONS TO ASTRONAUTICS, by Hermann Oberth, German Federal Republic (1967)	129
14. EARLY ROCKET DEVELOPMENTS OF THE AMERICAN ROCKET SOCIETY, by G. Edward Pendray, United States (1967)	141
15. LUDVIK OČENÁŠEK: CZECH ROCKET EXPERIMENTER, by Rudolph Pešek and Ivo Budil, Czechoslovakia (1968)	157
16. EARLY EXPERIMENTS WITH RAMJET ENGINES IN FLIGHT, by Yu. A. Pobedonostsev, Soviet Union (1967)	167
17. FIRST ROCKET AND AIRCRAFT FLIGHT TESTS OF RAMJETS, by Yu. A. Pobedonostsev, Soviet Union (1968)	177
18. ON SOME WORK DONE IN ROCKET TECHNIQUES, 1931-38, by A. I. Polyarny, Soviet Union (1967)	185

19.	S. P. KOROLYEV AND THE DEVELOPMENT OF SOVIET ROCKET ENGINEERING TO 1939, by B. V. Raushenbakh and Yu. V. Biryukov, Soviet Union (1968).	203
20.	THE BRITISH INTERPLANETARY SOCIETY'S ASTRONAUTICAL STUDIES, 1937-39, by H. E. Ross, F.B.I.S., United Kingdom (1967).	209
21.	THE DEVELOPMENT OF REGENERATIVELY COOLED LIQUID ROCKET ENGINES IN AUSTRIA AND GERMANY, 1926-42, by Irene Sanger-Bredt and Rolf Engel, German Federal Republic (1968).	217
22.	DEVELOPMENT OF WINGED ROCKETS IN THE USSR, 1930-39, Ye. S. Shchetinkov, Soviet Union (1967).	247
23.	WILHELM THEODOR UNGE: AN EVALUATION OF HIS CONTRIBUTIONS, by A. Ingemar Skoog, Sweden (1968).	259
24.	SOME NEW DATA ON EARLY WORK OF THE SOVIET SCIENTIST-PIONEERS IN ROCKET ENGINEERING, by V. N. Sokolsky, Soviet Union (1968).	269
25.	EARLY DEVELOPMENTS IN ROCKET AND SPACECRAFT PERFORMANCE, GUIDANCE, AND INSTRUMENTATION, by Ernst A. Steinhoff, United States (1967)	277
26.	FROM THE HISTORY OF EARLY SOVIET LIQUID-PROPELLANT ROCKETS, by M. K. Tikhonravov, Soviet Union (1967).	287
27.	ANNAPOLIS ROCKET MOTOR DEVELOPMENT, 1936-38, by R. C. Truax, United States (1967).	295
	Index	303
