Preface to the fifth edition ix

PART I

Scope and method 1

- 1 Introductory remarks 3
- 2 Cost-effective analysis 8
- 3 Proposals for weighting money valuations 11

PART II

Basic concepts of benefits and costs 21

- 4 Measurements of consumer surplus 23
- 5 Consumer surplus when several prices change 32
- 6 Consumer surplus when other things change 39
- 7 Introduction to the compensating variation 45
- 8 Measurements of rent 49
- 9 Is producer surplus a rent? 55

PART III

Shadow prices and transfer payments 59

- 10 Introductory remarks 61
- 11 Opportunity cost of labour 64

vi	<i>Contents</i>	
12	Opportunity cost of unemployed labour	69
L 3	The additional benefits of using unemployed labour	72
14	The opportunity costs of imports	76
15	Transfer payments and double counting	81
PART IV		
	External effects	85
16	Introduction to external effects	87
17	Adverse spillovers: the complacent view	94
18	Internalizing externalities	99
19	Evaluating spillovers	104
20	Compensating for environmental damage	111
PART V		
	Investment criteria	119
21	Introduction to investment criteria	121
22	Crude investment criteria	125
23	The discounted present value criterion	129
24	The internal rate of return	135
25	The alleged superiority of the discounted present value criterion compared with the internal rate of return criterion	139
26	Investment criteria in an ideal capital market	147
27	Calculation of rates of return and of time preference	149
28	Critique of the discounted present value criterion (I)	153
29	Critique of the discounted present value criterion (II)	158
30	The normalized compounded terminal value criterion (I)	162
31	The normalized compounded terminal value criterion (II)	167
32	The Pareto criterion and generational time	171

PART VI

Notes on particular goods **177**

- 33 The value of time saved 179
- 34 Measuring the benefits of recreational areas (I) 183
- 35 Measuring the benefits of recreational areas (II) 189
- 36 The value of life 194

PART VII

Uncertainty **203**

- 37 Risk and certainty equivalence 205
- 38 Game theory and decision rules (I) 208
- 39 Game theory and decision rules (II) 212
- 40 How practical are game theory decision techniques? 218
- 41 Simple probability in decision making 221
- 42 Mixed strategies in decision making 224
- 43 Four additional strategies for coping with uncertainty 228

PART VIII

Further notes **237**

- 44 A summing up 239

Appendix 1: Brief historical background to CBA 243

Appendix 2: The normative interpretation of a CBA 245

*Appendix 3: The alleged contradiction of the Kaldor-Hicks
criterion* 247

Appendix 4: The problem of second-best 251

Appendix 5: Origins of the Hicksian measures of consumer surplus 255

Appendix 6: Marginal curve measures of consumer surplus 260

Appendix 7: The concept and measure of rent 267

Appendix 8: Marginal curve measure of rent 272

Appendix 9: The limited applicability of property rights 277

viii *Contents*

<i>Appendix 10: The rate of time preference</i>	279
<i>Appendix 11: Selecting a set of investment projects for given political objectives</i>	282
<i>Appendix 12: The value of human life</i>	286
<i>Appendix 13: Deadweight loss or love's labour lost</i>	288
<i>Appendix 14: CBA and the problem of locating environmentally noxious facilities — an informal discussion</i>	292
<i>Bibliography and further reading</i>	302
<i>Index</i>	311
