Introduction xv

Part I Selected Papers of Julian Hochberg

1 Familiar Size and the Perception of Depth
   (with Carol Barnes Hochberg) 3

2 A Quantitative Approach to Figural "Goodness"
   (with Edward McAlister) 11

3 Apparent Spatial Arrangement and Perceived Brightness
   (with Jacob Beck) 17

4 Perception: Toward the Recovery of a Definition 23

5 The Psychophysics of Pictorial Perception 30

6 Pictorial Recognition as an Unlearned Ability:
   A Study of One Child's Performance
   (with Virginia Brooks) 60

7 Recognition of Faces: I. An Exploratory Study
   (with Ruth Ellen Galper) 66

8 In the Mind's Eye 70

9 Attention, Organization, and Consciousness 100

10 Components of Literacy: Speculations and
    Exploratory Research 125

11 Reading as an Intentional Behavior
    (with Virginia Brooks) 139

12 The Representation of Things and People 148
13 Higher-Order Stimuli and Inter-Response Coupling in the Perception of the Visual World 186

14 Film Cutting and Visual Momentum
   *with Virginia Brooks* 206

15 Pictorial Functions and Perceptual Structures 229

16 Levels of Perceptual Organization 275

17 How Big Is a Stimulus? 302

18 Form Perception: Experience and Explanations 329

19 The Perception of Pictorial Representations 360

20 Movies in the Mind’s Eye
   *with Virginia Brooks* 376

21 Looking Ahead (One Glance at a Time) 396

Part II  *Commentaries on Julian Hochberg’s Work*

Overviews

22 The Piecemeal, Constructive, and Schematic Nature of Perception
   *Mary A. Peterson* 419

23 Hochberg: A Perceptual Psychologist
   *Barbara Gillam* 429

Schematic Maps and Integration Across Glances

24 Mental Schemata and the Limits of Perception
   *James T. Enns and Erin Austen* 439

25 Integration of Visual Information Across Saccades
   *Mary M. Hayhoe* 448

26 Scene Perception: The World Through a Window
   *Helene Intraub* 454

27 "How Big Is a Stimulus?": Learning About Imagery by Studying Perception
   *Daniel Reisberg* 467

28 How Big Is an Optical Invariant?: Limits of Tau in Time-to-Contact Judgments
   *Patricia R. DeLucia* 473

29 Hochberg and Inattentional Blindness
   *Arien Mack* 483
Local Processing, Organization, and Perceptual Rules

30 Framing the Rules of Perception: Hochberg Versus Galileo, Gestalts, Garner, and Gibson
James E. Cutting 495

31 On the Internal Consistency of Perceptual Organization
James T. Todd 504

32 Piecemeal Perception and Hochberg's Window: Grouping of Stimulus Elements Over Distances
James R. Pomerantz 509

33 The Resurrection of Simplicity in Vision
Peter A. van der Helm 518

34 Shape Constancy and Perceptual Simplicity: Hochberg's Fundamental Contributions
Zygmunt Pizlo 525

35 Constructing and Interpreting the World in the Cerebral Hemispheres
Paul M. Corballis 534

36 Segmentation, Grouping, and Shape: Some Hochbergian Questions
Philip J. Kellman and Patrick Garrigan 542

Pictures, Film, and Dance

37 Ideas of Lasting Influence: Hochberg's Anticipation of Research on Change Blindness and Motion-Picture Perception
Daniel J. Simons and Daniel T. Levin 557

38 On the Cognitive Ecology of the Cinema
EdS. Tan 562

39 Hochberg on the Perception of Pictures and of the World
H. A. Sedgwick 572

40 Celebrating the Usefulness of Pictorial Information in Visual Perception
Jeremy Beer 581

41 Mental Structure in Experts' Perception of Human Movement
Dale S. Klopfir 592
